

DiffInE* Your Approach

***D**ifferential Diagnosis / **I**nterview / **E**xam

Before entering the room, consider:

1. Based on what we know now, what **DIFF**erential diagnoses are you entertaining?

2. Based on your preliminary **DIFF**, what critical **INT**erview questions will you ask, and why?

3. Based on this **DIFF**, what physical **EX**am components will you do, and why?
