

## Worksheet 4.6 Test Items and Instructions

See Module 4: *How Do You Design a Curriculum? Part 6: Learner Evaluation Strategies*

---

For each unit in your curriculum, create the learner evaluation materials.

---

1. Decide when and how often to test.
2. Review your objectives.
3. Blueprint your objectives using a blueprint grid.

4. Develop test items:

**For Knowledge**

- Facts: recall
- Concepts: recognize new instances
- Principles: explain, predict, control

**For Skill**

- Physical: observe performance
- Mental: student thinks aloud
- Interpersonal: observe performance

Refer to the *Handbook of Learner Evaluation and Test Item Construction*, which is available on the workshop home page.

5. Write the test instructions for the students.
6. Have the test reviewed by a colleague.
