Worksheet 4.6 Test Items and Instructions

For each unit in your curriculum, create the learner evaluation materials.

1. Decide when and how often to test.

2. Review your objectives.

4. Develop test items:
   - **For Knowledge**
     - Facts: recall
     - Concepts: recognize new instances
     - Principles: explain, predict, control
   - **For Skill**
     - Physical: observe performance
     - Mental: student thinks aloud
     - Interpersonal: observe performance

   Refer to the Handbook of Learner Evaluation and Test Item Construction, which is available on the workshop home page.

5. Write the test instructions for the students.

6. Have the test reviewed by a colleague.
